

Student Guidelines for the Group 4 Project

Monday, August 29

Faculty present initial information about Group 4 Project in subject codes; Students sign up for Group 4 Project Groups

September 6

Group 4 project research work begins. Select group leader. Select a topic. Topics need to be approved before the end of this CPD code by Travis, Mike, Nancy, or Ron. The group leader will report to the faculty supervisor if the group needs some help. Aspects of the topic should be subdivided within the group is be researched together by group members from more than one science.

September 20

PowerPoints due to each science faculty represented in the group by 9:30 pm. Personal evaluations due by email by 9:30 pm (one copy per person submitted by email for each Biology, Chemistry, or Physics faculty from whom you are taking a class).

September 27

Group presentations of their PowerPoints in Group 4 time. All members of the group must present. A 10 minute presentation limit will be strictly enforced.

From September 6 to September 20, Group 4 times (Tuesday 5:10 pm to 7:00 pm) will be used for Group 4 Project work. During this time period you will report to your assigned science classroom and are expected to use the entire CPD code for Group 4 Project work until the Group 4 Project is completed. If your group completes the Group 4 Project before September 20 (and this means all work done and received by the various faculty), you must report for attendance purposes and then will be dismissed. Absences will count as normal class absences.
